## **HISTORICAL NOTE**

The LSU Faculty Senate was established during the academic year 1973-1974, and was charged with representing the interests of the faculty within the larger LSU community. Currently, senators are elected from the larger body of the Faculty Council (all full time members of the LSU academic staff having the rank of instructor or higher) and are delegated their authority and responsibility to act on behalf of the Council. Each college or school within the university is awarded one senate seat for every twenty-five full time faculty members in their college.

The Executive Committee consists of three officers, three at-large members, and one ex officio member, all elected from within the ranks of the Faculty Senate. The Executive Committee represents the senate (and by extension, the council) at LSU's administrative level, and works to implement policy and enforce senate decisions.

The Faculty Senate has a number of standing committees (the exact number has varied through the years), while special committees are formed as needed for specific tasks that fall outside the scope of the standing committees. Some committees, such as the Admissions, Standards, and Honors Committee, have been in operation since the inception of the Faculty Senate. Others, such as the Archives and Records Management Committee, have been dissolved.

Some of the senate's notable activities include the creation and revision of Policy Statement 36 (Hiring, Review, Tenure, and Promotion), a project that encompassed more than twenty years, as represented in this collection, as well as a system for evaluating members of the university's administration.

## **SCOPE AND CONTENT NOTE**

This collection contains correspondence, meeting minutes, reports, and committee records generated by and about the LSU Faculty Senate. Correspondence includes letters and memorandums between senators and university administrators, as well as internal communication regarding agendas, policies, and committee duties. Meeting minutes include records of senate meetings and committee meetings, as well as selected minutes from the LSU Board of Supervisors. Notable items include the records of the revision of Policy Statement 36 on promotion and tenure, as well as the process of developing a system for evaluating university administrators. Other items of interest include materials relating to the declaration of financial exigency, both before and after Hurricanes Rita and Katrina, the gradual revision of admissions standards at LSU, and the installation of an ombudsperson on the Baton Rouge campus.
